

“10 WAYS FOR ART SCHOOLS TO BE MORE ENVIRONMENTALLY FRIENDLY”

- 1 Recycling and reusing material
- 2 Repairing and maintaining equipment
- 3 Managing waste responsibly
- 4 Sorting materials
- 5 Repurposing objects as new materials
- 6 Making immaterial art that lasts only a moment – focusing on the process
- 7 Using environmentally friendly chemicals and methods
- 8 Reducing digital waste
- 9 Using natural equipment and materials
- 10 Sharing knowledge with others

The document was created in 2023 by Haapsalu and Porvoo art school students who participated in the Nordplus Junior cooperation project "How to make art more environmentally friendly?"
